The extent of studies is measured in credits (cr). The average number of hours required in one academic year of studies, 1 600 hours, corresponds to 60 credits. One credit as calculated according to the previous credit system (ocr) indicates an input of approximately 40 hours of student work.

Grading: courses are graded either on a scale of 5 (highest), 4, 3, 2, 1 or Pass / Fail. The National Language Requirement Test: Good Knowledge (G) / Satisfactory Knowledge (S). The bachelor's thesis and seminar (field of technology) is graded on a scale of 1-5 or Pass with Distinction (PwD) / Pass in accordance with the degree regulations of the school. The modules to be included in the doctoral degrees (field of technology): Pass with Distinction (PwD) / Pass.

Those courses which are graded 5, 4, 3, 2 and 1 are included in the credit-weighted average grade. Average grade has been calculated if the group includes at least two courses graded on a scale of 1-5 or the extent of the course/s graded on a scale of 1-5 is at least half of the extent of the group. If this provision is not met, average grade is not calculated. The average grades have been rounded to two decimals.

Weight 2 is indicated in brackets beside the grade. (School of Business)
